

My name is Tracy and I am 38. Dr Wei treated me for infertility and my son is 12 months old now. I believe that Chinese medicine system including acupuncture is a very sophisticated system. It treats body from inside and out in a nature way. In modern time, it compliments western medicine system in a way so we receive maximum benefit from both systems. Since Dr Wei received education from both western and Chinese medicine system, she has great understanding of how one system compliments the other.

I went to Dr Wei after trying to get conceived for a year but without success. The infertility specialist doctor did all the tests on me and my husband and didn't find out anything wrong. Before I started to do IUI, I went to Dr Wei for treatment. She told me that the treatment was going to help my blood circulation and make my body balance, especially my uterus to get ready to conceive. I got pregnant after the 1st IUI. I am very happy and I think Dr Wei's treatment has greatly improved my chance of getting conceived.

Dr Wei is knowledgeable, considerable and very skillful. I highly recommend her to anyone who is seeking alternative treatment for their medical issue.
